

Welcome message to the organizers,
participants and visitors to the 24th Mir
Detstva and the 21st CJF – Child and Junior
Fashion 2018. Autumn International
Exhibitions

Dear friends,

On behalf of the Council of the Federation Committee on Social Policy let me heartily welcome the organizers, participants and visitors to the 24th Mir Detstva and the 21st CJF – Child and Junior Fashion 2018. Autumn International Exhibitions.

The annual holding of the trade shows has become a good tradition and a major event for professionals in the children's goods market as well as an international showcase of high quality products and services for children and teenagers. The event is aimed to improve today's educational system and aesthetic education of the younger generation and to assist in implementation of national priority projects.

It is very important that solution to the problems of development of the children's goods industry and children fashion and promotion of Russian manufacturers to the global market of children's products has reflected in the action plan up to 2020 implemented within the Decade of Childhood program approved by the Russian Government.

I am positive the trade shows will be memorable and their results will be soon embodied in new fashionable collections of eco-friendly clothing for children and teenagers.

I would like to wish everybody effective work, creativity, business success, and realization of the plans.
